Purpose

This manual serves as a Set of Procedures for how Marion St Properties handles routine leasing, reconciliation, move-out, and reporting work. It exists so the team works the same way every time and so new staff can be brought up to speed quickly.

Each SOP is one page and follows the same shape: a header box (Purpose / Trigger / Frequency), a numbered procedure, and a short notes line.

Rules of the road:

- Follow steps in order. Don't skip ahead.
- If you're blocked, tell ADDISON:.
- Each step owner sends a short confirmation email when their step is done.
- If a SOP doesn't fit the situation, default to caution and escalate.

Systems & files

Name	What it is
Yardi	Property management software — system of record.
Master Tenancy SS	Master tracking spreadsheet (tenancy, rent, COI, SD, options).
Tenant Folder	Per-tenant folder: lease, COI, deposit, correspondence.
JASON: Share	Mirrored copy of tenant docs delivered to JASON:.
Insurance Process	Folder where new COIs land before reconciliation.
Vacancy Report	Live list of vacant / available spaces.
Master Contact Sheet	Tenant contact directory (billing, COI, emergency).
MSP Dashboard	Streamlit Web App for Monitoring

Acronyms

COI — Certificate of Insurance. SD — Security Deposit. SS — Spreadsheet.

Sample Documents

Sample COI per building to give to potential tenant

Wire/ACH Sample for each building

Tenant Repair Request

Work Approval Request/GC COIs

Time/Material Template

Incident Report

Event Form

Security Deposit Exit Letter

Onboarding a tenant

- Rental application (with applicant disclosure/credit check authorization)
- Tenant screening criteria sheet
- Lease agreement (fixed-term)
- Month-to-month rental agreement
- Co-signer / guarantor agreement
- Welcome letter with move-in instructions
- Lead-based paint disclosure (required for pre-1978 properties)
- Mold, asbestos, and bedbug disclosures

Move-in / move-out

- Move-in condition checklist (with photo log)
- Move-out inspection checklist
- Keys and access receipt
- Security deposit receipt
- Security deposit itemized return statement

Ongoing tenancy

- Rent receipt
- Maintenance / repair request form
- Notice of entry (24/48-hour notice to enter)
- Change of contact info form
- Parking assignment / vehicle registration form

Addendums

- Pet addendum (with pet deposit terms)
- Smoking policy addendum
- Lead paint addendum
- Mold and moisture addendum
- Roommate / occupancy addendum
- Short-term guest policy
- Utilities and services addendum
- HOA / community rules addendum

Renewals and changes

- Lease renewal offer
- Rent increase notice
- Lease amendment / modification
- Lease assignment or sublet request

Notices and enforcement

- Late rent notice / pay-or-quit notice
- Notice of lease violation (cure-or-quit)
- Notice to terminate tenancy (landlord)
- Notice to vacate (tenant)
- Eviction / unlawful detainer notice (state-specific)
- Bounced check / NSF notice
- Abandoned property notice

Financial and admin

- Payment plan agreement
- Application fee receipt
- Year-end rent statement (for tenant tax purposes)
- W-9 request for vendors/contractors
- Insurance certificate request (renters insurance proof)

Vendor and operations

- Contractor / vendor service agreement
- Property inspection report (routine)
- Incident / complaint log
- Showing sign-in sheet

SOP 100 — New Lease or Addendum

Purpose	Onboard any new lease or lease modification (renewal, option, expansion, side letter, addendum) into all systems with a clean audit trail.
Trigger	Any lease document is fully executed.
Frequency	Per signed document.

Procedure

1. RICHIE/JASON: confirms the document is valid (for renewals/options: notice window, escalation, options remaining; for new leases: terms approved)
2. JASON: circulates document for signatures
3. RICHIE: signs document and emails the fully executed document to the team.
4. RICHIE: uploads the document to the tenant folder using the standard naming convention
5. ADDISON: mirrors the tenant folder to the JASON: share (can be done on demand and is scheduled nightly)
6. JASON: updates Yardi: attaches the new lease/addendum in Yardi, or extends/amends charges, escalations, and SD ledger for existing tenant
7. JASON: downloads and saves to Yardi Monthly Detail Report to : C:\Dropbox\OpenClaw\Share Jason\0_Jason_Upload\1280 Springfield\Yardi Report and emails group with attachment that its complete
8. JASON: If a COI is provided or now required, run SOP 200. If SD was funded or changed, run SOP 300. Otherwise flag both as Pending in the Master SS.
9. JASON: to Begin SOP 200 and SOP 300
10. WAIT: ADDISON emails to the group "Insurance Process Complete for Tenant xyz"
11. ADDISON: updates the Master Tenancy SS for whatever changed (term, rent, escalations, options remaining, SF, SD, COI requirements, contacts) and saves to two locations (C:\Dropbox\OpenClaw\Tenant Database & C:\Dropbox\OpenClaw\Share Jason\General Procedures\msp-dashboard-src\data)
12. ADDISON: pushes updates to MSP Dashboard, looks for any discrepancies and emails group "Tenant Pushed and completed"

SOP 200 — Insurance Reconciliation

Purpose	Every active tenant has a current, compliant COI on file.
Trigger	New COI received, COI within 30 days of expiration, or monthly cadence.
Frequency	Continuous intake; monthly reconciliation (1st business day).

Intake (per COI)

1. JASON: receives and saves the COI PDF to the Insurance Process folder in the Upload Folder ex. C:\Dropbox\OpenClaw\Share Jason\0_Jason_Upload\1280 Springfield\Certificate of Insurance
2. JASON: attaches insurances certificate inside Yardi
3. JASON: emails group to say "Insurance Process Initiated for Tenant xyz"
4. JASON: if no Insurance Certificate is applicable, Jason emails group to say "Insurance Process N/A for Tenant xyz"
5. ADDISON: Runs C:\Dropbox\OpenClaw\Python Scripts\move_invoices.bat process for naming and moving file (Also runs nightly on schedule)
6. ADDISON: Runs push script to upload Ins Certs to MSP Dashboard
7. ADDISON: checks limits, dates, additional insured language (Child and Parent Entity), and waiver of subrogation against the lease.
8. If compliant: file in tenant folder; and make sure its reflected on MSP Dashboard
9. If non-compliant: JASON: to email tenant/broker the deficiency; set status = Pending Correction; follow up weekly.
10. ADDISON: emails group "Insurance Process Complete for Tenant xyz"

Monthly reconciliation

11. Sis runs the report on the 1st business day: missing COIs, expirations within 30 days, non-compliant coverage
12. Sis emails the report to MSP Group. Items open >30 days escalate to the document owner.
13. Real time monitoring on MSP Dashboard

SOP 300 — Rent & Security Deposit Monitoring and Exit

Purpose	Keep scheduled rent and security deposit changes posted accurately and reconcile both monthly.
Trigger	New lease/addendum (SOP 100), scheduled escalation, deposit received or adjusted, or monthly cadence.
Frequency	Continuous on event; monthly reconciliation.

Rent change monitoring

1. Master SS holds each tenant's escalation schedule (date and new rent or formula). ADDISON: updates it whenever a lease or addendum is processed (SOP 100).
2. JASON: Manage Security Deposits and Rent Changes in Yardi and utilize Yardi communication with tenants for any changes
3. 30 days before each scheduled change, JASON: reviews the upcoming changes and notifies MSP Group.
4. For CPI or formula-based escalations, JASON: calculates the new rent per the lease and sends MSP the changes
5. JASON: posts the rent change in Yardi by the effective date and emails confirmation.
6. ADDISON: maintains MSP Property Dashboard as secondary error check.

Security deposit monitoring

1. New SD: confirm receipt, file in tenant folder, ADDISON: updates Master SS, JASON: posts to Yardi SD ledger.
2. SD increase (rent step-up or addendum): JASON: invoices tenant for the delta; JASON: posts to Yardi when received.
3. SD reduction (burndown or addendum): document, refund per lease using the SD Refund / Application form, update Master SS and Yardi.
4. ADDISON: maintains MSP Property Dashboard as secondary error check.

Monthly reconciliation (Sis, 1st BD)

1. Tie Master SS rent roll to Yardi rent roll — investigate any mismatch.
2. Tie Master SS SD balances to Yardi SD ledger and bank balance for the SD account — investigate any variance.
3. Email the reconciliation result to MSP Group. Items open >30 days escalate.

SD Refund / Application form lives in General Procedures → Forms.

SOP 400 — Tenant Move-Out

Purpose	Cleanly close a tenancy: settle balances, apply or refund SD, return the space to vacancy.
Trigger	Notice to vacate, or lease expiring without renewal.
Frequency	As needed.

Procedure

1. JASON: prepares the attached move out. Including a current ledger from yardi and breakdown similar to the example attached. IF it's an apartment, provide interest on SD as needed.
2. JASON: sends to RA for review/approval on move out terms.
3. RICHIE: Once confirms looks good, signs off for Jason
4. JASON:Sends it to Entire Team for move out/close out in Yardi
5. ADDISON: Yardi Move Out Process (Below)
6. Apply SD in Yardi: refund any excess, bill any remaining balance.
7. ADDISON: marks the unit Vacant in the Master SS and MSP Dashboard and adds the space to the Vacancy Report (SOP 600).
8. JASON:Sends refund check and Final Statement to Tenant
9. Sis reconciles Master SS, Yardi, and bank for the SD account post-move-out.
10. JASON: updates the Master Contact Sheet on the MSP Dashboard web-app (remove from active billing/COI lists) and archives the tenant folder.

Yardi Move Out Process

- First Make sure you have forwarding address
- Then Refund deposit and add itemized unit damage charges where applicable
- Select Print Moveout Statement
- Post Moveout Details
- Check that refund shows up under Accounting/Payables and that tenant is marked as "past"
- Residential
 - calculate Interest
 - Edit Letter at : \Marion St Properties\0_MSPShare\General Templates
 - write check by hand
 - send statement, letter and check all in one package certified
- Commerical
 - no Interest
 - use Chase Bill Pay to send check
 - Edit Letter at \Marion St Properties\0_MSPShare\General Templates
 - Send regular mail (move out statement and letter saying check will be coming)
-

SOP 500 — Recurring Reports

Purpose	Keep fresh, reconciled views of insurance, new tenancy, and vacancy in front of the team.
Trigger	Calendar — 1st business day each month, plus ad-hoc.
Frequency	Monthly packet by the 3rd business day.

Standard reports

Report	Source	Owner
Insurance Report	Master SS + COI files	Sis
New Tenant Report	Master SS + Yardi	Sis
Vacancy / Availability Report	Master SS (live, plus monthly snapshot)	ADDISON: live / Sis monthly
Yardi: Rent Roll, A/R Aging, SD Ledger	Yardi	JASON: produces, Sis appends

Procedure

1. 1st BD: Sis runs the Insurance Report (SOP 200) and SD Reconciliation (SOP 300).
2. Sis runs the New Tenant Report (commencements, renewals, move-outs in the prior month).
3. JASON: exports the Yardi reports and sends to Sis.
4. Sis combines into one packet and emails the team by the 3rd business day. ADDISON: drives follow-ups and logs status in the Master SS.

SOP 600 — Vacancy & Lead Management

Purpose	Track every vacant space and every prospect from inquiry to signed lease.
Trigger	Move-out posted (SOP 400), or new inquiry received.
Frequency	Continuous.

Vacancy Report — required fields

- Address / suite, square footage, date vacant.
- Asking rent, available term, any restrictions or carve-outs.
- Marketing status (active, on hold, off-market).
- Current prospect (if any) and stage.

Lead Sheet — required fields

- Date of first contact, source, prospect name & company, broker (if any).
- Space(s) of interest, use, target SF, target occupancy date.
- Stage: New → Touring → LOI → Lease Out → Signed / Lost.
- Last activity date, next-step owner, notes.

Procedure

1. On move-out (SOP 400), ADDISON: adds the space to the Vacancy Report with SF, vacancy date, asking rent, and marketing status.
2. JASON: logs every new lead on the Lead Sheet within 24 hours of first contact. No verbal-only leads.
3. JASON: matches leads to vacant spaces and advances the stage as the lead progresses.
4. On Signed: hand off to SOP 100. Close the lead with a reference to the executed lease and remove the space from active vacancy listings.
5. On Lost: mark Lost with a brief reason. Review lost leads quarterly for patterns.

Appendix — Numbering, Revision Log & Open Items

Numbering convention

- 100s — New leases and lease modifications.
- 200s — Insurance.
- 300s — Security deposits.
- 400s — Move-outs.
- 500s — Reporting.
- 600s — Vacancy, leads & re-leasing.

New SOPs use the next available number in the series (210, 220, etc.).

Revision log

Version	Date	Author	Change
1.0 (Draft)	Apr 27, 2026	ADDISON: Sollog	Initial draft from process notes.

Open items to confirm

- SD Refund / Application form location and naming.
- Reconciliation cadence — monthly, quarterly, or both.
- Owner of the New Tenant Report — Sis or ADDISON:.
- COI follow-up cadence — weekly is the current draft.
- Standard file naming conventions across leases, COIs, addendums.
